

MassMEP invites you to an informational session

Introduction to Systematic Plant Layout

Sponsored by MassMEP

Transform Your Manufacturing Processes with a Systematic Plant Layout

Join us for this informative session where you will be introduced to the Principles of Plant Layout and learn how this powerful tool can positively impact your manufacturing processes.

Learn how to efficiently utilize your existing footprint

MassMEP utilizes the data driven process of Systematic Layout Planning (SLP) developed by Dr. Richard Muther. This is a team-based systematic process that uses actual data to determine the most effective and efficient layout possible. SLP is recognized throughout the world as the most organized and effective way to develop layout plans. The process is essential for those companies who must:

- Add major new equipment or capacity
- Re-arrange for better material flow and throughput
- Expand or consolidate facilities
- Implement work cells and lean manufacturing
- Implement new warehousing methods, processes, and systems
- Re-arrange teams or more effective office communications

Benefits of a Typical Plant Layout

- Department footprint reduced by 62%
- Increased unit production by 57%
- Output per shift increased by 82%
- While maintaining quality, reducing costs and maintaining the integrity of the product.

Some things learned by past attendees:

- *Data supports decision making vs. opinions*
- *Data driven recommendations hold water, as compared to opinion*
- *There is a system to help you; It does and can incorporate for growth; and takes into consideration everything that goes on within the facility.*

What Our Clients are Saying

100% of the MassMEP clients believe they were more competitive after working with the MassMEP.

Who Should Attend

Company decision makers, plant managers, operations managers, presidents, shop supervisors and Lean champions

Program Schedule

8:00 a.m. Registration and Networking Breakfast
8:30 a.m. Program begins
11:00 a.m. Adjourn

Fees

\$25.00 per person

Locations

Wednesday, Feb. 29, 2012
MassMEP Offices, Worcester, MA

Thursday, March 22
UMass ATMC, Fall River, MA

Tuesday, April 24
EDC Office, Springfield, MA
