For immediate release –

## MassMEP Lean Roundtable at General Dynamics

General Dynamics C4 Systems hosts the Lean Roundtable at their Taunton facility on Tuesday, February 8, 2005. Program is 8:00 – 11:30 a.m. and the registration fee is \$50. Registration can be conducted on line through the MassMEP web site – [www.massmep.org](http://www.massmep.org).

### Program:

Learn from the Department of Employment and Training how state training dollars can aid you in training your workforce.

We will cover both the obstacles of integrating Lean within a large company and issues of training staff in Lean methodologies over different departments. General Dynamics engineers will demonstrate examples of how they are keeping Lean in the forefront during their implementation process.

Join us for this exciting and interactive seminar.

### Date and Time:

Tuesday, February 8 from 8:00 – 11:30 p.m.

### Location:

General Dynamics C4 Systems  
400 John Quincy Adams Road  
Taunton, MA 02780-1069

### About General Dynamics:

General Dynamics C4 Systems is a leading global systems integrator of net-centric C4 solutions. The company focuses on engineering and integrating solutions that facilitate the delivery of relevant knowledge to speed the decision cycle, so customers can see, hear, decide and act with absolute confidence – faster and more effectively. Leadership credentials come from applying world class capabilities to create high value, low risk solutions for use on land, at or under the sea, in the air and in space.
